A STARRY NIGHT
GALA & AUCTION

SPONSORSHIP OPPORTUNITIES

To Our Valued Community Partner,

We would like to invite you to join us for the New Horizon School "A Starry Night" Gala & Auction on Saturday, March 14, 2026, at the Renaissance Seattle Hotel.

For over 30 years, New Horizon School has dedicated itself to our students every step of the way, guiding them further along the path toward a successful future. At NHS, we know that with the right nurturing environment and community support, every student has untapped potential just waiting to be discovered. The journey toward further learning, employment, and other purposeful adult life activities begins here.

Your organization's continued partnership is now more critical than ever. This year, the funds raised from the Gala & Auction will be the driving force behind a truly vital initiative: the construction of a new gymnasium at New Horizon School. This new facility will provide dedicated spaces for physical education, adaptive sports, and extracurricular activities, and help our students build strength, confidence, and teamwork while fostering holistic development.

While we continue to ensure our students have access to effective curriculum, technology, arts programs, and more—equipping them with the tools they need to succeed—this year, we are asking you to help us lay the foundation for their future well-being and growth. Each student who has graduated from NHS had a dream and a viable plan for the future. We create the environment, and you make it possible for each of these students to realize their dream.

We invite you to support New Horizon School and the students we serve by becoming a sponsor of the "A Starry Night" Gala & Auction. Your investment will not only make an enormous difference in the lives of our students and our community, but it will also help us keep our tuition affordable for families as we ensure our students have access to their education.

Will you help us turn the dream of a new gymnasium into a reality, creating a transformative impact for generations of students?
